

# 6 IN 1

## Portable multifunction tester

pH / ORP / Salt / Temp / Conductivity / TDS

Ideal for service on pH / ORP controllers and salt systems, our 6-in-1 Multi Parameter water tester (ref# : WT6IN1), can simultaneously measure pH, ORP, Conductivity, Temperature (C/F), TDS and Salinity in one meter.

It does not require a power supply to operate, so it can be used anytime and anywhere. Measured value is accurately shown in the large, easy to read and clear LCD.

It has wide range of application, an ideal tool for all water quality testing like Swimming pool & Spa, Agriculture, Aquarium, Boiler, Chemical Industry, Cooling tower, Drinking Water, Fish Farming, Food industry, Hydroponic, Laboratory usage, Plating industry, Water Treatment, etc...

### Features:

- Compact & handy, easy to carry anywhere
- Compact housing IP57 waterproof standard and rugged design
- Large LCD (2.5 x 2 cm)
- Tester with 6 parameter measurement
- Wide pH range : 0 to 14
- Wide Temp. range : 32F to 194F / 0C to 90C
- Wide conductivity range : 0 to 2 000us / 2 000 to 20 000mS
- Wide TDS range : 0 to 1 300ppm / 1300 to 13 000ppm
- Wide ORP range : - 1 000 to 1 000mV
- Wide Salinity range : 0 to 1000ppm or 1000 to 12 000ppm
- Multiple pH calibration : 4.0 / 7.0 / 10.01
- Multiple Conductivity Calibration : 0us / 1 413uS / 12 880uS
- Microprocessor based for fast and accurate display
- New rugged & ergonomic design
- Powered by 4 x 1.5V AAA batteries
- Digital calibration by one button
- It floats on water
- With Automatic Temperature Compensation
- Display Maximum/Minimum value and data HOLD
- Selectable temperature unit C/F
- Battery Low indication
- Auto power off
- Easy to replace Conductivity electrode, pH electrode, ORP electrode
- Automatically identify the parameters during replacement of electrode

PORTABLE MULTIFUNCTION TESTER
